Pursuant to a congressional request, GAO reviewed the Public Buildings Services (PBS) System for Tracking and Administering Real Property (STAR), focusing on: (1) the functions STAR performs; (2) whether users were having problems using STAR; (3) the steps PBS had taken or is taking to address any user problems; and (4) the actions PBS had taken or plans to take to ensure that STAR data are accurate, reliable, and consistent. GAO noted that: (1) STAR is a real estate inventory management software application that maintains data on projects, leases, buildings, and space assignments--that is, who is in what space--in an integrated database environment; (2) the data in STAR are used to generate bills to clients for their assigned space, develop budget plans, track and manage leases, and evaluate performance; (3) STARs input/output functions include: (a) direct on-screen access to the data; (b) the ability to update the data; (c) access to standard reports; and (d) the ability to sort data and create ad hoc reports; (4) users identified problems with STAR as well as benefits derived from using the system; (5)...
