Brand New Book ***** Print on Demand *****.Excerpt from Factors Affecting Invention and Innovation, in Science and Technology: Implications, for the People s Republic of China The history of mankind is one of continuous development from the realm of necessity to the realm of freedom. This process is never ending. In the fields of production and scientific experiment, mankind makes constant progress and nature undergoes constant change; they never remain at the same level. Therefore, man has constantly to sum up experience end go on discovering, inventing, innovating, creating, and advancing. Natural science is one of man s weapons in his fight for freedom. For Che purpose of attaining freedom in Che world of nature, man must use natural science to understand, conquer and change nature and thus attaining freedom from nature. Usually, man conquers nature, changes nature, and attains freedom from nature through invention and innovation. With technological invention and innovation, mankind has pulled itself from Che mud huts of nut and berry gatherers through the Stone, Bronze, and Iron Ages, Che Industrial revolution, and into what has been called Che Atomic Age, Electronic Age, Computer Age, the Second Industrial Revolution, the Third Industrial Revolution, etc. So both invention and innovation arc important weapons attaining freedom from nature, and arc the important symbols of mankind s civilization and progress. Technological invention and innovation are the important marks measuring the level of science and technology for every country.
