

Textures of Materials: Proceeding of the Fifth International Conference on Textures of Materials March 28 31, 1978, Aachen, Germany Volume I

By -

Springer. Paperback. Book Condition: New. Paperback. 572 pages. Dimensions: 11.0in. x 8.2in. x 1.3in. Many important properties of a polycrystalline material are known to depend on the orientation of the crystallites. The distribution of these orientations is referred to as its texture. During the past decade a remarkable sophistication of experimental methods, of texture determination and texture representation has been achieved, and, at the same time, a fast development of texture applications, for the improvement of materials properties and for investigating the processes underlying the texture formation has taken place. As a consequence of this increasing interest in texture analysis and control in research and practice, world wide conferences on textures of materials were established in order to master the increasing flood of ideas and results. Until now five of such meetings were held, namely in Clausthal (1969), Cracow (1971), Pont-a-Mousson (1973), Cambridge (1975), and in Aachen (1978). The sixth conference of this series will be held in Tokyo. The present two volumes contain the refereed proceedings of the 5th International Conference on Textures of Materials (ICOTOM 5). It was held from March 28-31, 1978 at the Institut für Allgemeine Metallkunde und Metallphysik of the Rheinisch-Westfälische Technische Hochschule Aachen....

Reviews

A top quality publication along with the font used was intriguing to read. I really could comprehend everything using this written e book. Its been designed in an remarkably straightforward way and it is only after i finished reading through this publication by which basically altered me, modify the way i believe.

-- **Cathrine Larkin Sr.**

Very useful to all of group of people. I actually have read through and so i am certain that i will planning to study yet again once again down the road. I am just very easily can get a satisfaction of looking at a created book.
