The Cardiff Naturalists Society, in 1886, published the first material contribution to its elucidation under the somewhat misleading title of the Flora of Cardiff. This work was perhaps the most important of the many scientific enterprises of the late Mr. John Storrie, and is certainly the one by which he is most widely known. As indicated in the full title, and exactly delimited in the Preface, the area covered in that work comprised the eastern half of Glamorgan. Glamorgan has not been well supplied with indigenous botanists, and the eastern half of the County had, in particular, been much neglected before Mr. Storrie commenced his somewhat solitary labour. Associated with this gentleman, however, were a few botanists, who furnished him with considerable stores of material in the form of local records. The names of Messrs. R. Drane, T. H. Thomas. Chapman, Bell, Mrs. Traherne, Miss Ollivant, and Dr. C. T. Vachell may be mentioned as chief among those who furnished active help. Mr. Storrie was by no means satisfied with his work in the form in which it ultimately appeared. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
