

Neurological Technique: Some Special Histological Methods Employed for the Study of the Nervous System, Together with a Laboratory Outline for the Dissection of the Central Nervous System and the Neurological Nomenclature (Bna) Arranged

By Irving Hardesty

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Neurological Technique: Some Special Histological Methods Employed for the Study of the Nervous System, Together With a Laboratory Outline for the Dissection of the Central Nervous System and the Neurological Nomenclature (Bna) Arranged in a Classified List At the present time an acquaintance with the architecture of the nervous system is sought, not only by those who expect to pursue the practice of medicine, and who, therefore, need this knowledge for clinical work, but also by anatomists, physiologists, zoologists, and those who are interested in the biological problems that arise in the study of psychology and of its application to education. The object of this volume on neurological technique is to serve as an introduction and laboratory guide to the study of the architecture of this the most, complicated of the bodily systems. Like most books with similar aims, it has grown out of the attempt to meet difficulties that arose in our own laboratory, and the effort to bring together, in a compact form, such data as would make the student independent in the...

Reviews

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).

-- Prof. Kirk Cruickshank DDS

This kind of book is every little thing and taught me to looking ahead of time and a lot more. I am quite late in start reading this one, but better then never. I found out this book from my dad and i encouraged this pdf to find out.
